EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the CLAIMS:

Claim 33, line 24, "said" has been deleted and —a—has been inserted; note that "compact" does not have strict antecedent basis, and —a—was properly inserted for claiming the apparatus as set forth.

The following is an examiner's statement of reasons for allowance: it is deemed novel and unobvious over the prior art of record to so perform a method of molding wherein the molding apparatus is easily transported from one location to another comprising providing a frame member and attaching a movable mold platen having a mold base to the frame member, the movable mold platen capable of reciprocal movement between an advanced and retracted position relative to a fixable door platen hingedly mounted to the frame member, connecting a first powered actuator to the movable platen, connecting a second powered actuator to the fixable door platen for rotation, providing control means for movement and mounting at least one vacuum head to the mold base as claimed, the vacuum head applies a vacuum and is capable of

holding a substrate in position on the mold base, wherein during operation direct access to the substrate is gained through a door opening defined in the frame member when the fixable door platen is in the open position and wherein a compact molding apparatus is movable from place to place.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
